## FOUR POPULAR VARIETIES

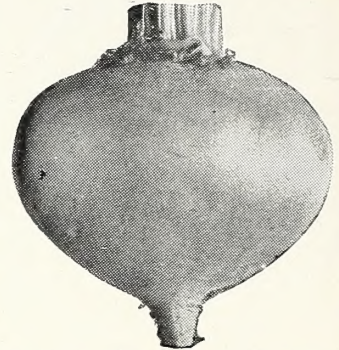

DO NOT FAIL TO PLANT

Parcel Post Table  
See Page 16

We Pay Postage on Pkts.,  
Ozs., ¼ Lbs. and ½ Lbs.

### Bolgiano's New Early Spring Beet

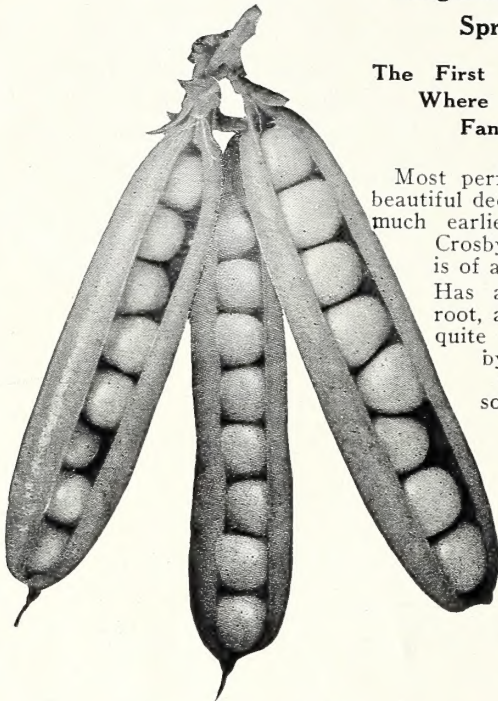

The First Beet in Market  
Where It Commands  
Fancy Prices.

Bolgiano's New Early Spring Beet

Most perfect in shape and beautiful deep red color. It is much earlier maturing than Crosby's Egyptian, and is of a much finer grain. Has a very small tap root, also top, not being quite as large as Crosby's Egyptian. It will pay you handsomely to give it a trial.

Pkt., 10c. Oz., 15c. ¼ Lb., 45c. Lb., \$1.50. Postpaid.

Pedegree Extra Early Peas

### Pedegree Extra Early Peas

One of the Earliest Peas in Cultivation

Usually ready for picking in 35 to 40 days. They are hearty, very productive and withstand changes in weather conditions better than most early varieties. Vines are vigorous and hearty, grow to 2½ feet high, unbranched, bearing 3 to 7 straight pods having 5 to 7 medium-sized smooth peas of good quality. Our improved strain of this most excellent variety, we believe to be the finest in the world. Pkt., 10c. Pt., 20c. Qt., 30c. 4 Qts., 95c. Pk., \$1.65. Bu., \$6.00.

### The Charleston or Large Wakefield Cabbage

The Best Large Early Cabbage

It can be the First Cabbage sent to market and on account of its handsome appearance, will invariably bring the Tip Top Prices. If, however, the early market prices are low, it can safely be left standing in the field to mature to an extra large, compact, solid,

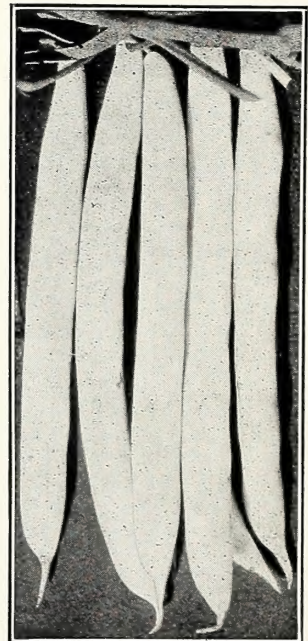

The Charleston or Large Wakefield Cabbage

magnificent cabbage which has never failed to attract the admiration of the most skilled gardeners and always brings better prices than any other sort harvested at the same time. Our stock is extra selected. Pkt., 10c. Oz., 20c. ¼ Lb., 50c. Lb., \$1.75. Postpaid.

### New Davis Kidney Wax Beans

The King of Flat Wax Beans

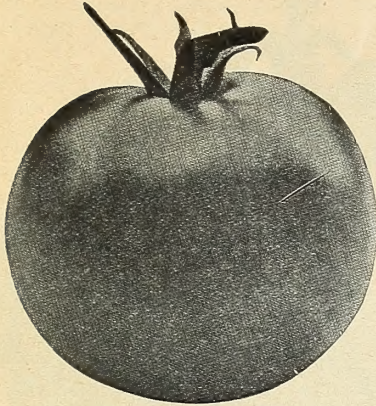

A beautiful form, handsome long pods. A valuable market garden and home garden variety. Particularly known for its evenness in maturity and its uniformly large, exceedingly straight, clear yellow, symmetrical and attractive pods 5 to 5½ inches long. Luscious flavor, prolific yielder, rust proof, excellent shipper. Be sure to plant some. Pkt., 10c. Pt., 25c. Qt., 35c. 4 Qts., \$1.00. Pk., \$1.80. Bu., \$6.50.

### After 12 Years Specializing in Tomatoes Finds the "Bolgiano" Tomato Has No Equal

On Oct. 8th, 1920, R. B. Hills, of Charleston County, S. C., wrote: "For twelve years I have been making tomatoes my specialty. I tried some of your "Bolgiano" Tomato, and in every respect it is the best and finest tomato that I have ever planted. For quick maturity it has no equal. Its extra earliness is wonderful. Planted the last week in March, fruit can be gathered by June 1st. They are a beautiful, smooth tomato, bright red in color; thin, but rather tough skin, without being hard. Has very few seeds, solid, meaty, free from acid and very sweet. The best I have ever known for table and canning qualities. Immensely prolific, combined with vigorous growing qualities. Begins to set fruit from the first blooms. Ripens very quickly. The fruit is about 2½ to 3 inches in diameter and ripens evenly. It is borne mostly in clusters of six to eight on each cluster. Entirely free from blight and continues to bear fruit all summer, withstanding both heat and drought."

### The "Bolgiano" Tomato

An Ideal Tomato From Every Standpoint

On Oct. 14th, 1920, Mr. L. H. Parker, of Essex County, Va., wrote: "I planted the "Bolgiano Tomato" Seed in April and transplanted it in May. July 1st there was from 27 to 54 large, well-formed ripe tomatoes on each tomato vine. Each tomato ripens without crack or crevice or unripe spot from bud to stem end. The vines are vigorous, making beautiful plants with the broad, dark-green leaves and its large clusters of ripe, uniform fruit. Blight injured all our other tomatoes, but apparently had no effect on the 'Bolgiano.' The incessant rains of August did not affect it, neither did the long drought of September. It ripened eight days before any other variety. It has already yielded twice the number of vines of any other type and all are full of tomatoes. The fruit contains few seeds. The fruit is firm, meaty and delicious, very tender. I could distinguish it in the dark if allowed to slice it. From every standpoint it is an ideal tomato."

### Recommend Them to All Gardeners

On August 8 Mrs. R. E. Ellison, of Fairfield Co., S. C., wrote: "The Mighty Nice Bean Seed bought of you last Spring gave great satisfaction, and I take pleasure in recommending them to all gardeners. Notwithstanding a very hot, dry spell we had, they bore profusely. It is a nice flavored bean and very tender."

### Very Fine As Always

On July 1st Mr. Louis Stoeckel, of St. Louis County, Fla., wrote: "The 1000-1 Bean Seed which I purchased from you last September turned out very fine, as your bean seed always has done."

### Stand the Test.

On July 24 Mr. Fetch, of Bradford Co., Fla., wrote: "It gives me pleasure to state that the early Red Valentine Bean Seed which I purchased from you was successful. They withstood the drought and bore a crop of crisp, tender beans, while my friends who had used other stocks had poor success."

Pride of the Market Carrot.

### I Feel It a Duty.

On May 17th Mr. George W. O'Neal, of Palm Beach Co., Fla., wrote: "I feel it a duty to say a word of commendation about the shipment of Bermuda Onion Seed you sent me last September. I planted seed as soon as it arrived, and in a few days they were up, as thick and nice as I have ever seen them grow, very even all the way through, notwithstanding the fact that we had a great deal of rain all the way through the early fall, followed by a drought, but the onions prospered wonderfully."

Bolgiano's Famous New "Early Fortune" Cucumber.

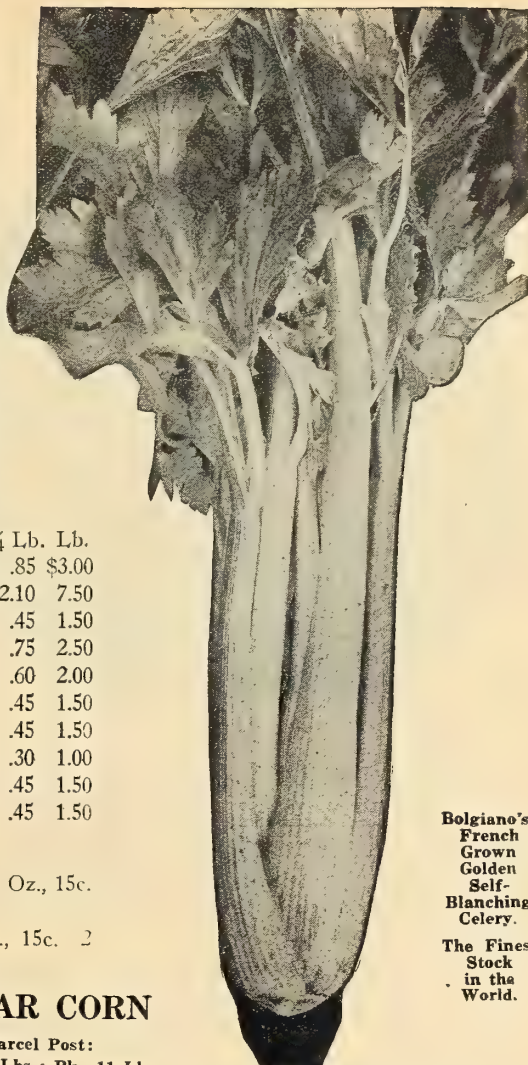

## BOLGIANO'S FRENCH GOLDEN SELF-BLANCHING CELERY

WON THE BLUE RIBBON AT THE SOUTH FLORIDA FAIR, HELD AT TAMPA

*Otto Gottfried, of Manatee County, Fla. wrote: "I secured first prize at the Tampa, Fla., Fair, February 15-22, for the best 10 bunches of Celery, which I grew from your French Golden Self-Blanching Celery Seed."*

### Bolgiano's French Crown Golden Self-Blanching Celery

is of the most Superb Quality. Its crispness and tenderness and its delightful, rich, nutty, appetizing flavor makes it the leading variety in any market. The stalks are large, solid and a beautiful, rich golden yellow, entirely free from stringiness. It is an excellent keeper, stands shipment better than any other sort and brings the highest market prices.

**I CONSIDER IT MY DUTY**

On July 20th Mr. E. A. Kraemer, of Jefferson County, N. Y., wrote: "I consider it my duty to drop you a few lines to let you know that the seeds that I have purchased from you have given entire satisfaction this Season. We have had a very dry Spring, and things were planted under very unfavorable conditions, but at present are doing well, and I take pleasure in showing my crops and at the same time saying that I bought the seed from you."

**AFTER FIFTEEN YEARS' TRIAL**

On Aug. 14th Mr. F. K. Bucik, of Lavaca County, Texas, wrote: "I have used Bolgiano's Seeds for fifteen years, and they have never failed me yet. They have always come true to germination and purity. My neighbors can testify to same, as they buy them through me."

### New 1921 Seed Peas

Prices are Subject to Change

First Class Selected Stock. Finest Hand Picked Samples.

One quart will plant about 100 feet of drill. One and one-half to two bushels for an acre. Those Marked with a Star (\*) are wrinkled marrows and unless otherwise stated should be sown thicker than the round Peas, and not until the ground has become warm, as they are more liable to rot. They are the finest flavored of all Peas.

Kindly Include Postage on All Quantities by Mail Except 5c and 10c Pkts.

Always True to Name.

On August 9, Mr. August Katuch, of Lavaca Co., Texas, wrote: "I sent you my order in June for 35 lbs. of White Bermuda Onion Seed for delivery in the Fall. Last year I had only 25 pounds. Thus you will see I have increased my order 10 pounds for the coming Fall. My friends do not want any Bermuda Onion Seed from any other Seed House but Bolgiano. They say they have tried other seed houses and could never get seed to come up like yours, and they claim seed that they purchased from other sources was mixed with several different kinds of onions, while yours is always true to name. This year we had a bad winter which froze the onions down to the ground twice, but notwithstanding this, your seed made large marketable onions. There are four merchants in our nearest town, and they all say the best onions they sell grow from Bolgiano's seed."

We carry a full line of all Field and Grass Seeds and Seed Grains. Our stocks are complete. When ready to buy, kindly write us, naming the seeds in which you are interested, and we will quote you the lowest prices at that time. We will gladly send samples upon request. All quotations subject to market changes.

### ALFALFA

The proper development of Alfalfa largely depends on the soil. It can be grown on many kinds, from sand or sandy loams to heavy clay. It thrives best in deep loams with open, porous sub-soil, where tap roots are not hindered, as the root penetrates to a considerable depth. The quality of the sub-soil is of great importance. If it is compact and impenetrable, it will be a serious obstacle to successful Alfalfa growing. The soil must, therefore, be kept well drained, especially in early Spring. In poorly drained field Alfalfa will be injured and sometimes killed in the low spots where water has accumulated. Alfalfa, like other leguminous plants, depends on the bacteria or nitrogen for its vigorous development. Therefore, it is necessary to use bacteria inoculation in treating the seed before sowing. This will supply the young plants with the necessary nitrogen for a quick start, and will prove advantageous to your stand of Alfalfa.

The seed bed should be thoroughly prepared. One of the best ways to prepare your land for Alfalfa is to sow cow peas and soja beans about May 15th, plow the forage under, harrow and roll immediately after plowing to hold the bacteria under soil that are in the nodulus on the roots of the cow peas and soja beans. This forage should be plowed under not later than the 15th of August. After the rolling, ground stone lime should be used at the rate of 1,000 lbs. per acre. It will be best to apply the lime through a drill and roll immediately after liming. This will give you a solid seed bed for sowing your Alfalfa the last of August or the first of September. Twenty pounds should be used to the acre, and be very careful not to cover the seed more than one-half inch.

Bolgiano's "Gold" Brand Alfalfa seed that we are offering is non-irrigated seed, best adapted for all localities.

1 Lb., 25c. (Postpaid 30c.). 10 Lbs., or over, 24c. lb. 100 Lbs. or over, 22½c. lb. \$13.50 for 60-lb. bu. Prices fluctuate. We will quote prices any time upon request. Bags holding 2½ bu. extra at 40c each.

### Hairy Vetch (*Vicia Villosa*)

*Vicia Villosa* succeeds and produces good crops on poor sandy soils as on good land; grows to a height of 4 to 5 feet. It is perfectly hardy throughout the United States, remaining green all winter; should be sown liberally from July to November with winter rye, oats, wheat or barley, which serves as a support for the plants. It is the earliest crop for cutting, being hardier and nearly a month earlier than Crimson Clover, and a full crop can be taken off the land in time for planting spring crops. Every Dairyman and Stock Breeder in the United States should have a field of it, and if you try it once and see its value, you will never be a season without it. It is exceedingly nutritious, eaten with relish and may be fed with safety to all kinds of stock. Crop short. 1 Lb., 14c. 10 Lbs., 12c. lb. 100 Lbs., 11c. lb. Bags included.

### CRIMSON CLOVER SEED

**Crimson Clover.** Saves Fertilizer bills and increases the Farmers' Income Millions of Dollars. Sow liberally, either alone or at the last working of corn or cotton. It makes the land rich in nitrogen and humus of vegetable matter and puts it in the very best condition for the crops which follow. It also makes a **Fine Winter Cover Crop.** A **Good Early Forage Crop.** An **Excellent Grazing Crop During the Late Fall, Winter and Early Spring.** A **Splendid Soil Improving Crop.** Plowed under early in the Spring it increases the yield of corn, tobacco, cotton or other crops which follow it to a wonderful extent. Sow during July, August or September, 15 pounds per acre. If Crimson Clover is cut just as it is coming into bloom, before the seed forms, it will make a first-class Hay Crop. Crimson Clover can be used for grazing, early green feed or hay, even then the condition and productiveness of the land upon which it is grown will be wonderfully improved. For Fruit Growers, Corn Growers, Cotton Growers, Tobacco Growers, Dairymen, Truckers and Market Gardeners, Stock Breeders and Large Poultrymen. Crimson Clover has a marvelous value that as yet has only been partially understood and appreciated. New crop seed, large, bright, golden berries, fine, plump, well matured. Immediate shipment Bolgiano's "Gold" Brand Fancy Crimson Clover. 1 Lb., 12c (Postpaid 17c). 10 Lbs. and over, 11c. 100 Lbs., 9c. (\$5.40 bu. of 60 lbs.) Bags included. Prices fluctuate. Will quote you prices at any time upon request.

#### TIMOTHY

1117. **Timothy.** Of Hay Grasses Timothy is one of the most popular, nutritious and salable. On clay or heavy loams, lowlands or in mountainous districts, provided there is an abundance of moisture, it produces the very best results. On sandy or light loamy ground it does not do so well as Orchard, Tall Meadow Oat or Red Top Grass. If grazed or cut too close, the stand of Timothy will be seriously injured. Besides, it does not form as good grazing as many other grasses. The yield of Hay is from 1½ to 3 tons per acre. Timothy requires good land to make good crops. It does not root as deeply and is not considered as much of an improver as other grasses, consequently should not be sown on land deficient in humus or vegetable matter nor on soils of a light or sandy nature. Clovers grow well with Timothy and aid it by supplying nitrogen. Timothy alone a peck (11 lbs.) to the acre, or with Clover 10 lbs. Timothy and 6 lbs. Clover. A splendid mixture is 8 lbs. Timothy, 6 lbs. Clover (either Mammoth Clover or Alsike Clover preferred, as they mature at the same time as Timothy), 6 lbs. Fancy Red Top, ½ bu. Meadow Fescue. Together these will produce most excellent hay, also nutritious and abundant pasture in good loamy clay on low ground soils: 8 lbs. Timothy and 6 lbs. Clover when sown together. Price: "Gold" Brand, Lb. 10c. (Postpaid 15c). Pk., \$1.00; ½ Bu., \$1.90; Bu., \$3.60; 5 Bu. lots and over at \$3.50 per bu. Prices fluctuate. We will quote prices at any time upon request. Bags holding 2½ bu. are extra at 40c each

# Bolgiano's Hardy Perennial Flower Seed For Fall Planting

We Can List Only a Very Few in This Catalog. Send Us a List of Your Requirements. We Will Make You Special Prices.

# BOLGIANO'S EXTRA SELECTED STOCKS

WORTHY SPECIAL MENTION

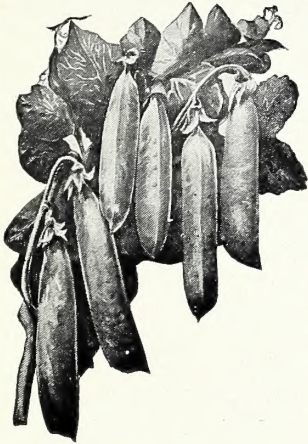

THESE WILL REPAY YOU HANDSOMELY—BE SURE TO INCLUDE IN YOUR ORDER

## Bolgiano's Early Alaska Peas

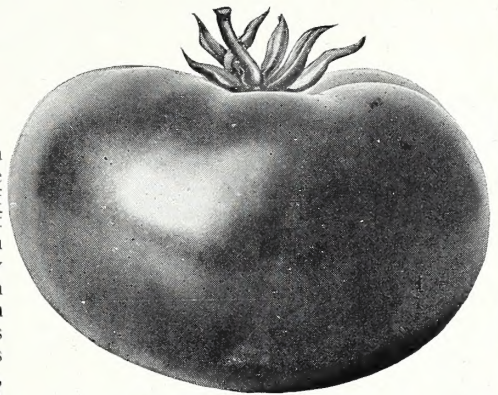

Reselected, Improved  
Extra Early

By careful selection and growing we have developed a stock of this smooth blue pea of unequalled evenness in growth of vine and early maturity of pods, which are filled with medium sized bright green peas of good flavor. The vines are of medium height, about 2½ to 3 feet, and of distinctive light color.

The pods are of good size about 2½ to 2¾ inches long. Matures all of its crop at once and is a valuable variety for Market Gardeners and Canners. One of the most productive extra early peas on the market. Pkts., 10c. Pt., 25c. Qt., 35c. 4 Qts., \$1.00. Pk., \$1.80. Bu., \$6.50.

Bolgiano's Early Alaska Peas

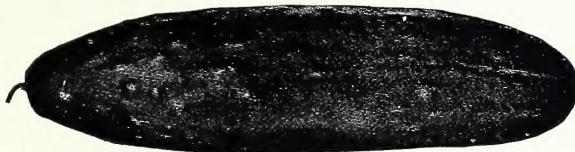

The "Bolgiano" Tomato

## THE "BOLGIANO" TOMATO

The Most Wonderful Yields Ever Known

The Bolgiano Tomato produces a far superior crop to any you have ever seen. Every vine is loaded with great quantities of perfect fine, red, solid tomatoes. Two weeks earlier than the Earliana. Very smooth, first fruit as good as the prime of the season. The heavy potato-leaf foliage protects the fruit from sun-scald and blister. Deep red in color, very solid, no watery seed cavity, a solid mass of meaty flesh. Fruit is all selected type. Will stand long distance shipping in perfect condition Pkts., 10c. 15c and 25c. ¼ Oz., 75c. ½ Oz., \$1.25. Oz., \$2.25. ¼ Lb., \$7.50 ½ Lb., \$14.00. Lb., \$25.00. Postpaid.

Bolgiano's "Early Fortune" White Spine Cucumber

## Bolgiano's "Early Fortune" White Spine Cucumber

The Great Money Maker—The Ideal  
Cucumber for Home or Market

Thousands of expert growers everywhere have proven by actual test that Bolgiano's Early Fortune Cucumber is the earliest and by far the best, rich dark green White Spine Cucumber on Earth. It is the greatest producer of all varieties and at all stages of its growth it is a model in shape, being the handsomest and most attractive cucumber ever grown. Pkt., 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c. Postpaid.

Henderson's Early Summer Cabbage

## Henderson's Early Summer Cabbage

Large, Round, Flat Heads 8 to 10 Pounds Each

We have reselected and improved our strain of this most wonderful cabbage until we believe that we have the finest stock in the world. The quality is excellent, tender and sweet. It comes in about ten days later than the Early Jersey Wakefield, but is more than double in weight. It is very valuable for the home garden as well as in the market. It is also well adapted for kroust. The plants are vigorous and strong growing but compact. It will keep longer without bursting than any other sort. Pkt., 10c. Oz., 20c. ¼ Lb., 50c. ½ Lb., 95c. Lb., \$1.75. Postpaid.
